

Lancaster General College of Nursing & Health Sciences Health Science Library

Off-Campus: How do I access Library Resources?

VPN-eligible students, faculty, and staff of Lancaster General and Lancaster General College may access the library resource remotely through VPN access.

Before you will be able to do this, you must obtain access to the VPN by submitting a VPN Request form to IS Security. VPN access is only available to exempt employees, with certain exceptions for students and adjunct faculty.

The Process...

- (1) Visit www.lancastergeneralcollege.edu.
- (2) Use the Quick Links (top of the page) or Online Services page to click the link for "VPN Remote Access".
- (3) Login to the VPN using your normal network username and password.
- (4) At the VPN menu, go to the Intranet website.
- (5) From the Intranet website, choose the "College" tab at the top-right.
- (6) From the College website, click the "Library" tab on the left.
- (7) Click the link for whichever library resource you are trying to access.
