

# Lancaster General College of Nursing & Health Sciences

## Clinical Simulation Laboratory

### Guidelines

- **No food or drink** is permitted in the Clinical Simulation Lab (CSL).
  - Everyone must **wash their hands** prior to using the HPS, ECS, or BabySim
  - Gloves should be worn whenever gloves would be used in treating a real patient.
  - Be careful when using pen or pencil in the CSL. The mannequins are highly susceptible to staining.
  - **Do Not** unzip the mannequins
  - Students and faculty are expected to leave the lab in the same manner as they found it (i.e. equipment, tables, chairs).
  - Please **submit a written list** of disposable supplies used during a simulated clinical experience to the lab coordinator.
  - Clinical Simulation Lab supplies and/or equipment are not to be removed from the lab without the written permission of the Lab Coordinator.
  - Professional, safe behavior will be expected when participating in the clinical simulation lab
- 
- **\*\*\*Please alert CSL staff immediately to any concerns or problems with using HPS, ECS, or BabySim\*\*\***
